

# SILENT SCREAMS

The Drones Can't Hear the Groans of People Dying on the Ground...Do We?

Audience reviews:

"Unmistakable framing of the truth"

"Gripping and disturbing"

"The power of one person's encounter with the reality of war, our complicity, and the hope that we can do things differently, has great impact"

Spotlighting the destructive costs of US wars, this documentary ties together the plight of defenseless civilian victims abroad with the hardship of millions in America whose vital needs go unmet as a result of increased military spending.

Produced and Directed by Central Iowa Peace Activist, Karla Hansen
